_	The MAILING DATE of this communication app						
Per	Period for Reply						
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). - Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).							
Status							
	1) Responsive to communication(s) filed on 20 De	ecember 2004.					
2	Pa) This action is FINAL . 2b) ⊠ This	action is non-final.					
	3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is						
	closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.						
Disposition of Claims							
	4) Claim(s) 1-12 and 20-24 is/are pending in the a 4a) Of the above claim(s) is/are withdraw 5) Claim(s) is/are allowed. 6) Claim(s) 1-12 and 20-24 is/are rejected. 7) Claim(s) is/are objected to. 8) Claim(s) are subject to restriction and/or	vn from consideration.

DETAILED ACTION

Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 7-9, 11-12 and 20-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Blanks, 5732446 in view of Andersen, 6035495 and Sauer, 4300270.

Blanks discloses all the limitations of applicants claimed invention except for a rib disposed along the return loop and indentations in the opposite sides of the head.

Andersen discloses using a reinforcing rib (13) on a return loop (12', figure 1) and Sauer discloses the use of a plurality of indentations (49, 49a) on the housing of a hose clamp. Both the reinforcing rib and indentations strengthen the clamps. Also, Sauer discloses that the use of a plurality of reinforcing indentations further increases the strength of the clamp.

It would have been obvious to a person having ordinary skill in the art to have added reinforcing ribs and indentations to Blanks's metal tie band, as taught by Andersen and Sauer, to increase the strength of the tie band to improve the reliability of the tie band.

3. Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Blanks in view of Andersen and Sauer as applied previously and further in view of Thurston, RE25769. Blanks in view of Andersen and Sauer fail to disclose coating the tie. Blanks

Application/Control Number: 10/613,062

Art Unit: 3677

discloses that the tie is formed from stainless steel or any other type of metal (col.2, lines 30-33). It is well known that stainless steel is corrosion resistant. Therefore, if any other less corrosion resistant metal is used, a need arises for coating the clamp to prevent corrosion from occurring.

Thurston discloses that it is old and well known to coat a metal clamp to provide a means to resist rust formation on the clamp (col. 6, lines 26-34). Therefore, it would have been obvious to a person having ordinary skill in the art to provide Blanks's clamp, when using a metal other than stainless steel, with a rust preventative coating. This will ensure that the clamp will have a longer service life.

Response to Arguments

4. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 3677

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack W. Lavinder whose telephone number is 703-308-3421. The examiner can normally be reached on Mon-Friday, 9-4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Judy Swann can be reached on 703-306-4115. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
